SUMMARY OF INFORMATION

SG1B

The current (19 1300L JUN 90) location of the vessel known by call sign  is at 12 50'N 44 00 W (note: due to map scale coordinates are accurate only to a degree not minutes).

This vessel is a 50-60 foot fishing vessel. It is wide and has a high bow. The hull is primarily red in color and the superstructure (located midships) is primarily white. The vessel has two engines, both of which are more powerful than needed for a fishing vessel. Phonetics acquired for the name of the vessel is "Compa Verde" or "Campo Vento" ie, two words, two syllables each: first word starting with hard C or K, second word starting with V.

The vessel will rendezvous with the second vessel on 20 June 90 between 1800-2100 hours local/ship time at 11 00'N 39 00'W (again, due to map scale these locations are accurate only to degree, not minutes.) The second vessel is a 130-140 foot container ship. It's hull is dark or black with white trim. It's superstructure is white with some red. Phonetics acquired for the name of the vessel was one word "B\_\_\_\_SS\_\_\_\_D" (perhaps Boossard or Boossand or Boossad).
